CAREER OBJECTIVE

Motivated MCA graduate with a strong interest in IT Support, AWS Cloud, DevOps, Networking, Linux, and IT Infrastructure. Hands-on experience in software configuration, deployment support, application maintenance, and system troubleshooting through academic and freelance projects. Currently building practical knowledge in AWS Cloud and DevOps while strengthening Linux, networking, and cloud infrastructure skills. Seeking an entry-level opportunity where I can contribute, learn, and grow as a Cloud & Infrastructure professional.

TECHNICAL SKILLS

IT Support : Desktop/laptop troubleshooting, software installation, system maintenance, issue resolution, basic hardware/peripheral support

DevOps : Git, GitHub, Linux, Shell Scripting Basics

Microsoft 365 : Microsoft Office, Outlook, Teams, OneDrive, SharePoint fundamentals

Networking : TCP/IP, DNS, DHCP, Subnetting, LAN/WAN basics, VPN & Wi-Fi troubleshooting

Cloud / Security: AWS fundamentals (EC2, S3, IAM, VPC), access control and IAM basics

Tools : Git, GitHub, Python, SQL (Basic), HTML, CSS, MS Office, MS Excel

RELEVANT IT SUPPORT EXPOSURE

- Hands-on experience troubleshooting application, deployment, and configuration-related issues across academic and freelance projects.
- Supported software setup, environment configuration, access workflows, and operational issue resolution during desktop and web application development.
- Familiar with Windows-based troubleshooting, installation/configuration, networking diagnostics, and Microsoft 365 user support workflows.

PROJECTS

POS Billing & Inventory System — Desktop Application

Freelance

Tech: Python, Flask, PyQt6, SQLite, GitHub, PyInstaller, Inno Setup

- Developed and maintained a desktop-based POS application supporting billing, inventory management, and sales reporting operations.
- Configured SQLite-based invoice and inventory workflows and packaged the application as a standalone Windows executable using PyInstaller and Inno Setup.
- Supported troubleshooting, configuration, production error logging, and maintenance activities to improve application stability and usability.

Events Matrix — Event Management Platform

College Project

Tech: Python, Flask, REST API, ReportLab, Razorpay, QR Code Generation

- Built and maintained a web-based event management platform supporting user registration, authentication, ticket generation, and admin workflows.
- Troubleshot application issues, backend workflows, and user access-related problems to improve system reliability and usability.
- Supported role-based access control, payment workflow integration, and documented configuration logic during development and testing.

EDUCATION

Master of Computer Applications (MCA) — SRM IST, Ramapuram 2024 – 2026 | CGPA: 8.07

Bachelor of Computer Applications (BSC) — SRM IST, Vadapalani 2021 – 2024 | CGPA: 7.9

Higher Secondary (Class XII) — Velammal Matric Hr Sec School 2021 | 72.5%

CERTIFICATIONS & STRENGTHS

Certifications: Basics of Computer Hardware & Networking; UI/UX: Complete Web & Mobile Designer — Udemy
AWS Cloud & DevOps Training (In Progress)
