

BALAJI V K

AWS Cloud | DevOps | Linux | Networking

Chennai, India | +91 9790915646 | connectwithbaalaji@gmail.com | linkedin.com/in/balajivk | balajivkportfolio.netlify.app

CAREER OBJECTIVE

MCA graduate seeking an entry-level DevOps Engineer opportunity with hands-on knowledge of AWS, Linux, Git, networking, and cloud infrastructure. Currently building practical experience in Docker, Kubernetes, CI/CD, and AWS through hands-on projects and labs. Strong interest in automation, deployment, troubleshooting, and infrastructure management.

TECHNICAL SKILLS

- DevOps: Git, GitHub, Linux, Shell Scripting Basics
- Cloud / Security: AWS fundamentals (EC2, S3, IAM, VPC), access control and IAM basics
- Networking: TCP/IP, DNS, DHCP, Subnetting, LAN/WAN basics, VPN & Wi-Fi troubleshooting
- IT Support: Desktop/laptop troubleshooting, software installation, system maintenance, basic hardware/peripheral support
- Microsoft 365: Microsoft Office, Outlook, Teams, OneDrive, SharePoint fundamentals
- Tools: Git, GitHub, Python, SQL (Basic), HTML, CSS, MS Office, MS Excel

RELEVANT EXPOSURE

- Hands-on experience troubleshooting application, deployment, and configuration-related issues across academic and freelance projects.
- Supported software setup, environment configuration, access workflows, and operational issue resolution during desktop and web application development.
- Familiar with Windows-based troubleshooting, installation/configuration, networking diagnostics, and Microsoft 365 user support workflows.

PROJECTS

AWS Cloud Infrastructure Project —

Tech: AWS EC2, VPC, IAM, Security Groups, Linux, Git

- Deployed and configured EC2 instances in AWS.
- Configured networking, security groups, IAM permissions, and Linux environments.
- Practiced server connectivity, application deployment, and troubleshooting.

Events Matrix — Event Management Platform, College Project

Tech: Python, Flask, REST API, ReportLab, Razorpay, QR Code Generation

- Built and maintained a web-based event management platform supporting user registration, authentication, ticket generation, and admin workflows.
- Troubleshot application issues, backend workflows, and user access-related problems to improve system reliability and usability.
- Supported role-based access control, payment workflow integration, and documented configuration logic during development and testing.

EDUCATION

Master of Computer Applications (MCA) — SRM IST, Ramapuram 2024 – 2026 | CGPA: 8.50

Bachelor of Computer Applications (BCA) — SRM IST, Vadapalani 2021 – 2024 | CGPA: 7.9

Higher Secondary (Class XII) — Velammal Matric Hr Sec School 2021 | 72.5%

CERTIFICATIONS & STRENGTHS

- Basics of Computer Hardware & Networking — Udemy
- UI/UX: Complete Web & Mobile Designer — Udemy
- AWS Cloud & DevOps Training (In Progress)
