

BALAJI V K

UI/UX Designer | Full-Stack Developer | MCA Graduate

connectwithbaalaji@gmail.com | +91 9790915646 | linkedin.com/in/balajivk | Chennai, India | <https://balajivkportfolio.netlify.app/>

CAREER OBJECTIVE

Motivated MCA graduate with dual expertise in UI/UX Design and Full-Stack Development, and hands-on freelance experience delivering production-ready applications. Skilled in Figma prototyping, Python/Flask backend, REST APIs, and desktop app deployment. Eager to contribute to innovative product teams.

TECHNICAL SKILLS

Languages	Python, HTML, CSS, JavaScript, SQL
Frameworks	Flask, REST API Development, Tailwind CSS
Desktop	PyQt6 (WebEngine), PyInstaller, Inno Setup
UI/UX Tools	Figma, Adobe XD — Wireframing, Prototyping, User Flow Design
Dev Tools	Git, GitHub, SQLite, Linux (Basics), MS Office, MS Excel
Libraries	ReportLab, Razorpay SDK, QR Code Generation
Hardware	System Troubleshooting, Installation & Configuration, Networking Basics

PROJECTS

POS Billing & Inventory System — Desktop Application [Freelance]

Tech: Python • Flask • PyQt6 (WebEngine) • SQLite • HTML/CSS (Tailwind) • JavaScript • GitHub • PyInstaller • Inno Setup

Built a fully deployable POS solution used for real-world client operations with automated updates and installer support.

- Developed and deployed a full-stack POS application with billing, inventory management, and sales reporting features.
- Built desktop GUI using PyQt6 WebEngine integrating Flask backend with HTML/CSS (Tailwind) and JavaScript frontend.
- Implemented dynamic billing with discount support (amount & percentage) and automatic total calculation.
- Designed inventory module with stock tracking, low-stock alerts, and product management.
- Built invoice generation with printable format and SQLite database for efficient data storage and retrieval.
- Created sales reporting dashboard with daily revenue insights and recent transaction history.
- Automated app updates via GitHub and packaged into a standalone Windows .exe using PyInstaller & Inno Setup.

Events Matrix — Full-Stack Event Management Platform [College Project]

Tech: Python • Flask • REST API • ReportLab • Razorpay • QR Code Generation • Figma

UI/UX & Design

- Designed end-to-end user flows and wireframes for event registration, ticketing, and admin dashboards in Figma.
- Applied user-centered design principles to create intuitive multi-role interfaces for attendees, organizers, and admins.

Backend & Technical

- Built Python & Flask backend with multi-user event registration, authentication, and role-based access control.
- Developed REST API ticket automation with QR code generation and multi-page PDF output using ReportLab.
- Integrated Razorpay Payment Gateway with backend transaction verification for secure real-time payments.

EDUCATION

Master of Computer Applications (MCA)	SRM IST, Ramapuram 2024 – 2026	CGPA: 8.25
Bachelor of Computer Applications (BCA)	SRM IST, Vadapalani 2021 – 2024	CGPA: 7.9
Higher Secondary (Class XII)	Velammal Matric Hr Sec School 2021	72.5%

CERTIFICATIONS

UI/UX: Complete Web & Mobile Designer — Udemy Computer Hardware & Networking Basics — Self-learning

CORE STRENGTHS

Problem Solving • User-Centered Thinking • Attention to Detail • Quick Learner • Client Delivery • Team Collaboration
